

MOBILE PRINTING

TOSHIBA MANAGED SERVICES
beyond workflow

Mobility and Printing - a new dawn

With a greatly expanding workforce of mobile workers, there's an increasing demand to solve the challenges of printing from mobile devices such as smartphones, tablets and wireless notebooks within business infrastructure or outside the corporate firewall.

- TOSHIBA Mobile Print is the perfect fit for users who need secure mobile printing from mobile devices, tablets and laptops.
- TOSHIBA Mobile Print is a feature-rich solution to solve mobile print needs for any business, from a few employees to many thousands.
- Easy to use - if users know how to send an email, navigate to a web address or use a smartphone app, they can print with TOSHIBA Mobile Print.
- Supports most popular document formats via Web, email or mobile application, including Microsoft® Office, OpenOffice, PDF and images, as well as any document types via Driver Print.

What's more, TOSHIBA Mobile Print supports any client computer on any platform that can use a recent Internet browser, such as Internet Explorer, Firefox, Chrome or Safari, and ANY mobile device that can send an email.

Scan, capture & print

TOSHIBA Mobile Print takes the guesswork out of connecting to the correct device by helping you to select your most recently used print devices, or locate your printer by scanning a QR code.

- Print a document from your mobile device or cloud storage (Box, Dropbox, Google Drive, SkyDrive).
- Print images stored in photo gallery or captured by the camera.
- Utilise advanced print settings such as number of copies, duplex and colour mode.
- Select Private Print or Hold Print to prevent the printed document from being left on the printer or MFP.
- Scan a document from an MFP and store the document onto your Mobile device or upload it to cloud storage.
- Generate and print a QR code to simplify MFP discovery.
- Use user authentication and department code to maintain a secured office.

Printing made simple for mobile workers

Four simple ways to print, Direct Print, Web Print, Universal Driver Print and Email Print. Mix and match printing functions and authentication methods to meet the specific requirements of your environment.

Direct Print

Print directly from Android or iOS mobile device.

Email Print

Printing from a mobile device, is as simple as sending an email with an attachment.

Upload via Web

Upload documents to print using a Web browser in popular formats such as Microsoft Office, OpenOffice or PDF's.

Universal driver

Just one simple setup, and mobile workers can print securely directly from within the programs they use on their laptops, from Windows, Mac or Linux.

Whether based on premises or in your own private cloud, TOSHIBA Mobile Print offers authorised users the freedom to connect to corporate print resources, wherever they are located.

Mobile Workers

Business professionals

Employees

Corporate guests

Satellite offices

External users and guests

Control access to print resources from mobile devices for both internal network users as well as external guests

No information such as user or document information is sent to third parties. TOSHIBA Mobile Print does NOT require a connection to the internet or third party servers.

TOSHIBA Mobile Print - at a glance

- Sending documents to print is as simple as sending an email, using a Web browser, or using a smartphone app.
- Designed for user self-service, with interfaces and instructions in the users own language, ensuring any user can print immediately.
- Integrates easily with existing network print infrastructure and existing print management solutions for accounting, cost recovery and quota management.
- Convenient "pull printing" option allows users to release and print at any network connected device with the same emulation using existing security cards or PIN.
- Rest assured — full security and control with enterprise level security architecture and features delivers total peace of mind.
- Works with any printing device with a Windows printer driver.

TOSHIBA Mobile Print is compatible with the following Microsoft® Windows Server versions; Windows Server 2003, 2003 R2, 2008, 2008 R2, 2012, 2012 R2, either 32 and 64 bit.

TOSHIBA Mobile Print can print to devices from all major manufacturers, covering most lasers, inkjets, and multifunction devices, without any special configuration.
